

WELD COUNTY RE-ENTRY NEWS

Director's Corner

We have come to the close of another fiscal year at The Rock Found. It has been a challenging year for us all due to COVID19.

However, we have enrolled more individuals in our program this year than ever before! As essential personnel we worked diligently to provide services to those in need after incarceration. Please take a minute and review our "outcomes" as we continue to strive to keep individuals in both our program and the community safe!

Board Insights

Our board is growing! Lots of exciting things going on at The Rock as we continue to transform our program into even more effective programs to progress the men and women re-entering the community! In the midst of the challenges in 2020 we are excited about our progress to endure and embrace the challenges. In order to hold things together we embraced Zoom as did many others did and it helped us to grow and believe this will continue! We are embracing lots of new projects as we focus on the up-coming new fiscal year.

We are always blessed when someone comes into our program and wants to change as much or more than we want them to! This is true of William who came to us from ICCS and became a resident in our program. He had many obstacles to overcome in the community, he not only found employment and retained it, he has moved into the community and continues to attend our programs, leading others down the same path!

TRF's Happenings

Case Mgr
Amanda
Lucas is a
Rockstar!!!

There is nothing you can't do through her way that she can't handle! Her caseload almost doubled this year and by making only a slight adjustment here she did it without hiring more staff.

Great job Amanda!
