

# TS900C Terminal

Timekeeping Made Easy.

Smart  
fingerprint  
terminal

Designed for high traffic  
and extreme conditions,  
such as construction and  
industrial environments.

## Features:

### World's #1 Fingerprint Technology

Built with the premier fingerprint sensor in the world today, the Timeco TS900C guarantees verification everytime in any environmental condition. Protect yourself against fake and spoof fingerprints by capturing fingerprint data from the surface and subsurface of the finger.

### Real Time Communication

Designed with today's connected world in mind (IoT "internet of things.") Our communication technology leverages seamless real time data transfer from our devices to third party systems and vice versa.

### Dual Frequency Card Reader

The Timeco TS900C offers dynamic dual frequency support of multiple credential technologies including iCLASS Seos, iClass SE, Standard iCLASS, HID Prox, Standard Prox EM, NFC, Felica MiFARE Classic and Mifare DESfire EV1.

### Built in Wifi and Bluetooth 4.0

Expand communication capabilities with Wifi or Bluetooth.

### 5" Touch LCD Display

The 5" inch touchscreen, displays crisp, high resolution user notification screens.

### Flexible APIs

The Timeco Cloud and TS900C APIs provide methods to manage, control, and monitor TS900 Smart Biometric & RFID devices.
