

Touchless Face Recognition Time Clock

Designed to for today's post covid workplace

Promote a Healthy Workplace

Keep your employees safe by clock-in & out completely hands-free, and therefore eliminating the spread of germs.

#1 Face Recognition Technology

Collect more geometric data points and contours of the user's face allowing for a highly -secure, ultra-fast face identification under anylight condition

Eliminate Buddy Punching

completely eliminates "Buddy Punching" - the practice of one worker clocking in/out for another.

Not To Worry - It Works Offline

Your employees can clock-in & out even when the internet goes down.

See everything in real-time

No configuration required, all data from the timeclock to software happens seamlessly in real-time

Secure & Encrypted

All communication and data transfer/storage is encrypted and uses the latest TLS 2.0, SSL security standards.

Time & Attendance Features

Restrict Early in/ Late out

Maintains compliance, and restricts when your employees can clock in or out.

Employee Self-Service

Empower your employees with the ability to check their time-card, schedules, and PTO right at the clock.

Custom Display

Create customized display prompts for Employees for leave requests, viewing Schedules and many more

Specifications

Dimensions

Height: 10.8" in / 272 mm
Length: 5" in / 135 mm
Width: 1.8" in / 30 mm

Smart Card Technology

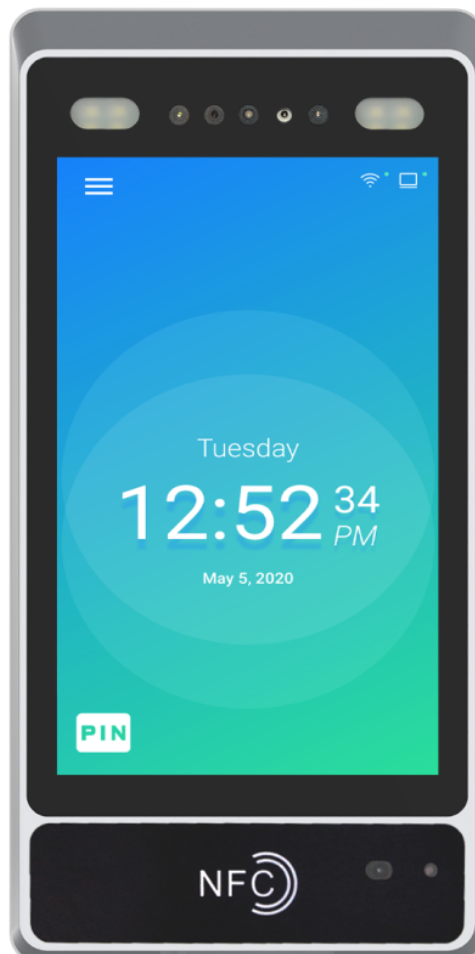

High frequency 13.56 Mhz
Mifare, N C
ISO 14442 A/8, 15018092 Compliant

Environmental

Operating Temperature
-14/10C to 113/ 43C
or Indoor Use Only

Multiple Clock-In Methods

Contactless R I D Card
Pin
Face Recognition

Power

DC12Volts
Current (Operational): 2A

Processor & Memory

Processor: Octa Core 1.8GHz
ARM Cortex
Memory: 2GBDOR

Communication Interface

Ethernet 10/100 Mbps Wi-Fi
Bluetooth 4.2 Wiegand Output
DryContact Relay
