

Manners Hats

Our classroom was learning about good manners and they were having a lot of fun making their manner hats.

To make these hats you will need:

- 1 Old brown bag cut in strips of 2-3"
- Paint and paint brushes
- Glue
- Colorful cutouts on which you can write down all the manners that your child currently knows.

Have the kids paint the brown bag and the cutouts the way they like.

You can have them do it themselves or you can help them glue the strips in a circle first and then glue the cutouts on the strips. Before gluing everything together you or your older kids can write down all the manners they know and use.

As soon they master a new manner you can put a new cutout on the hat!

Have fun!!!
