Toddler Town Announces Family Fun Nights

Toddler Town would like to connect to our families, and also help families connect on a regular basis. We are trying new fun events and activities that will bring families and toddler town closer. Our first steps to starting a bond will be family fun nights, and our toddler town family cook book. Family fun nights will consist of evenings with games, activities, shows, and crafts for families to participate in such as build a family mailbox night, science night, game night, movie night, dance off night, and many more. If you have any ideas for family fun nights we are all ears, just ask to speak with a teacher or Mr. Robert. Another activity that we would like to start will be our Toddler Town Cookbook. This will consist of different families favorite family recipes. We would love to learn about the different cultures that we have here

family **FUN** night

at toddler town and why not first try it by tasting it for ourselves. We will put together a huge recipe book with all cultures for everyone here to enjoy. Please don't be shy and submit your family favorite today. Last but not least please make sure to check out your child's cool profile on ABCmouse.com. We are trying to work together as a team with families on building your child's education abilities. With ABCmouse.com we can connect with you at home with activities we are doing here at school. Remember if you have any questions please feel free to ask your child's teacher as well as Mr. Robert. We want this fun new way to learn to be as easy as can be, and for parents to stay involved with their child's learning experiences as much as possible. Get ready for new family fun events starting all parents, cant wait to see you all there.

UPCOMING DATES

- July 4th – Toddler Town will be Closed
- July 27th– National Parents Day
- July 24th -Family Fun Night
- 6pm to 7pm Please RSVP by Monday July 15

Ms. Jackie and Ms. Lee's Teddy Bears Class 2-year-olds

Bowl Turtles

Last month we continued our lesson in nature and the outdoors. We also worked one on one with the children in academics to prepare them for the 3 year old room. Also, we introduced the children to ABC Mouse and sent home the children's own account information for them to work at home. Because

they loved this software, we will be incorporating it in our class this month and give the children the opportunity to work on it individually. Parents, if you haven't already looked into ABC Mouse for your child, we encourage you to do so. It will be developmentally beneficial to your child as they will be able to

learn at home all while having fun. Also, we will be celebrating July 4th with arts and crafts and enjoying outdoor fun this summer! Lastly, parents please check and update your child's clothing for their cubbies.

Ms. Jackie and Ms. Lee

Ms. Selina and Ms. Irene's Butterflies Class 3-year-olds

Hello Parents, I am the butterflies new teacher Ms. Selina. I previously taught in the Bumble Bee room. Some parents have worked with me before but if you do have any concerns you may meet with me in a parent teacher conference. I will be glad to answer any

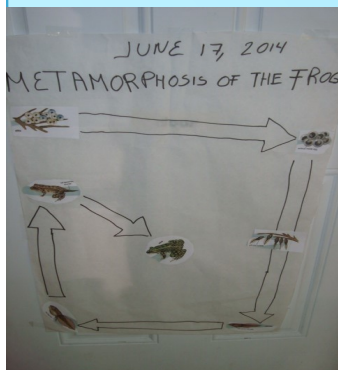

questions or concerns you may have. This past month the butterflies have been working on their names, colors, shapes, bugs, ourselves, numbers, and alphabet in the month of June. During the month of July we will continue to work on names and bring

colors into the mix. The theme for the month will be water, this means we will have at least one water activity every week. Parents please check out our new ABCmouse program, and sign up to volunteer in our classroom, the children will love it. Ms. Selina and Ms. Irene

Mr. Temok's Guppies Class 3 and 4-year-olds

Life Cycle of a Frog Chart

Hello, Readers. I am Mr. Temok and I will be teaching in the Guppies classroom.

In the month of June we reviewed the alphabet. The students discovered the world of frogs. The weather was particularly nice this month, we enjoyed the

playground and we were able to take short walks outdoors. We also made a card for Father's Day.

In the month of July we are going to continue working on the alphabet and numbers. We are going to talk about Independence Day. Finally, we

are going to have a fish in our Guppies classroom and if we get nice weather the students will be able to enjoy a camping day.

Mr. Temok

Ms. Barber's Bumble Bees Class 3 and 4-year-olds

Even though the month of June gave a us some tricky weather, we still manage to have some fun. The children did a lot of fun projects on Dr. Seuss, frogs and they did a special project for dad for Father's Day. The Children were very excited about frogs this month. The children learned about the life cycle

of a frog, its habitat and the different parts on a frog. The children also made their own frogs out of paper plates, paint and construction paper. We then added some fake frogs to our classroom that change colors in cold water. Next month the children will work with bugs and learn about the 5 senses and go

on a camping adventure in class. We will discuss the different things you bring on a camping trip and the different ways you use your 5 senses and the different type of bugs that they see outside. Please parents check cubbies everyday for homework package and the latest news, please and thank you. Ms. Barber

Ms. Taga's Bears Class 4 and 5-year-olds

Opposites Big and Little

Happy 4th of July! To review the month of June, we began our opposites. We began with big/little, on/off and inside/outside. We also discussed summer and made our Father's day projects, which were a big hit. For the month of

July, we will continue to review our opposites, touching on back/front, short/long, top/bottom and up/down. We will also be talking about 4th of July. We will continue our summer projects using natural collage materials and water play when

weather is permitting. We will also continue to discover science by creating experiments in the water. It should be a great month! Ms. Taga

Ms. Megan's Koalas Class 5-year-olds

Hi Parents,
I am the new teacher in the Koalas classroom, you all know me as Ms. Megan. Some of you have seen me around school in different classrooms but now I have taken a new role in the 5 year class. June has been an exciting month for us! We had learned about camping, ocean animals and we had an awesome graduation

show! For the month of July, we have so many exciting themes planned. We will be learning new dances from around the world, different musical instruments and we will learn different types of music. I will have different kinds of music players coming in and playing music for the class. We will also be keeping up our practices on math skills and reading.

Parents: Please sure to have your child fully prepare for this summer. That means by having their clothing items up to date in their cubbies and applying sunscreen on your child before they come to school. Thank You and Have a Great Summer!
Ms. Megan
