

Welcome Back Newsletter

Hello Parents,

We would like to give you a small recap of how our school days have been going since our reopening. Our children have been so excited to return to the center and begin their routines of having fun. We are very happy that all of our parents have been helping us with the new and easy Drop off and pick up procedures that have been put into place due to Co-Vid your help has made for a very smooth transition from day one of our reopening.

In the morning when children are being dropped off, parents' line up on their corresponding 6-foot distance spots. Mrs. Maritza and Mrs. Rebecca are in the front waiting to greet parents and children. Once children are screened they are then walked into their classroom by Mrs. Rebecca.

Our classrooms are set up for children to maintain social distancing within themselves. Our classrooms with ages 3 to 5 have their own chair pockets that contain each child's daily materials to avoid cross contamination among their peers. Children were very excited to have their own materials with their own name on them to use throughout the day.

Our teachers have found creative ways to maintain our daily routines. When possible, children will have their circle time outside where there is enough space to be 6 feet apart and enjoy a beautiful story.

Children are encouraged to play individually or parallel to their peers.

Play is a vital part of a child's optimal social, cognitive, physical, and emotional development. Researchers agree that play provides a strong foundation for intellectual growth, creativity, problem-solving and basic academic knowledge. Teachers have worked hard to develop different stations in the classroom so children can still have fun learning while playing and keep a social distance from one another.

Children enjoyed their mealtimes together. It is important that they still have the opportunity to socialize with their peers and teachers.

Teachers are constantly cleaning and disinfecting the toys. Once a child is done playing with their toy, toys will be placed in a “Un-sanitized Toy Bin”. Teacher will make sure that the toys are clean and sanitized for the next child to use.

Since we have reopened, the staff has been doing a wonderful job of sanitizing all the high touched surface areas, toys and materials. Everyone is encouraging the students to practice social distancing, keeping their mask on when it is necessary and overall trying to keep to a normal routine with the students. That is key at this point.

We as a staff are helping the children return back to normalcy while ensuring their health and safety. We know and understand that for parents not to come into their child’s classroom can be difficult, but we are very thankful that everyone understands the importance of the new rules until we are in phase 5.

We have had the chance to speak to a few parents about their experience with our reopening. Here is what they had to say!

“You guys have been doing a wonderful job! I feel safe leaving my child here during the pandemic.” -Lilian Sanchez

“I am so happy that you guys are open again. I’m glad to see my child being able socialize again with children again! It has really made a difference at home. I feel confident leaving my child at school now because I know you guys have been taking the right measurements”- Armani Cruz

“I felt a lot better watching all the staff members wearing masks and hearing that about how everything was being cleaned. The day my kids started back at school, I felt so comfortable leaving my children in your hands.”- Lynette Reyes

If you have any questions or concerns, please feel free to call or email us and we will be happy to help!

Thank You,
Toddler Town Daycare
