

"Defining your leadership philosophy is the most important decision you make as a leader"

Heart-Led Leader Training Program

"I hope you'll choose to become a heart-led leader. I want this for you because it will change you, your organization and the people you influence."

- Tommy Spaulding

Based on the book "The Heart-Led Leader" by Tommy Spaulding, this training will help you define your leadership philosophy, which is the most important decision you can make as a leader. Learn the 18 essential Leadership Traits and build your awareness and skill at implementing them in your work. It's an 18-inch journey that will help you become a game-changing leader...for life!

The training can be done at your workplace or an off-site location. It is engaging and geared for active participation by your staff. Participants will be challenged as they learn more about the 18 leaders featured in the book, whose game-changing stories help illustrate the way of the Heart-Led Leader. Participants will not only be inspired, but leave with changed hearts and heads packed with the practical knowledge to put this into action on a daily basis.

"The Heart-Led Leader is full of heart - and full of stories about real leaders whose courageous examples will inspire you. If you put the principles in this book into practice, it will not only change your life and your organization, but also make the world a better place."

- Daniel H. Pink, author of Drive and To Sell is Human
