

2nd Trimester Enrichments 2019-2020

Course Name	Max Students	Fee	Open to:	Course Description
Beginning Coding w/ Ms. Smith	12	none	3rd 4th 5th	This class includes beginning coding with both technology and non-technology projects. The activities are engaging, fun, and occasionally artistic! We will use Scratch Jr., Ozobot, various S.T.E.M.technology. We will use digital technology to learn codes, cyphers, decoding, QR codes in action, and problem solving, all while having so much fun learning the world of coding!
Card Games w/ Mrs. Tatro	18	none	1st 2nd 3rd 4th 5th	In this enrichment students will learn a new card game each week and have time to practice and play with friends.
Creative Story Writing w/ Miss Ruby	16	none	3rd 4th 5th	Come and write! Students will work on creative writing skills. We will read a variety of stories for inspiration and use that to create our own unique stories. We will also use the stories to create pictures to enhance our own stories!
String Art w/ Ms. Poe	16	none	1st 2nd 3rd 4th 5th	Make your own string creations through weaving, cross-stitching, and of course, string art! Students will be able to take home their masterpieces once they have finished.
Nursery Rhyme Projects w/ Ms. Sloan	18	none	1st 2nd	We are going to be writing our own nursery rhymes and using Ms. Art's amazing guidance to illustrate our rhymes. These illustrations will have a surprising outcome. Join us in creating our own book of rhymes.
Jump Rope Jam w/ Mrs. Jenes	18	none	1st 2nd 3rd	Students will explore various types of jump roping activities, including Chinese Jump Rope and Double Dutch. Join us in exercising and having a jumping good time!

2nd Trimester Enrichments 2019-2020

Poetry w/ Mr. Smith	16	none	3rd 4th 5th	Creatively express yourself with some poetry! We will be writing unique poems, reciting them in different ways, and expressing our one-of-a-kind ideas through fun learning opportunities. Roses are red, violets don't run, join us for poetry, we'll have some great fun!
Rocket Science w/ Mr. Josh	12	\$20	2nd 3rd 4th 5th	Students will learn basic craftsmanship techniques by building their own model rockets, launching them into the air, and hoping for a safe return to the ground. We will also learn the basic physics of thrust and how to approximate altitude using geometry.
Snow- shoeing w/ Ms. Osgood	18	\$15	1st 2nd 3rd 4th 5th	We are going to learn all about staying warm, safe, and happy in the winter wonderland outdoors! Come prepared to learn about basic snow safety, including preventing hypothermia and frostbite. We will also talk about working and functioning as a team. We will be taking a snowshoeing trip near the end of the trimester (on a Saturday). You'll need warm clothes and boots (please let Ms. Osgood know if you need any of these items). Snowshoe rentals are part of the cost of the enrichment.
Typing/ Digital Literacy w/ Mrs. Grogan	16	none	4th 5th	21st century learners will gain a valuable life skill in this class. We will cover basic computer components, jargon, and proper keyboarding techniques. <i>**This course is for 4th and new 5th graders w/ last name G-L**</i>
Ukulele w/ Ms. Oates	12	\$15	3rd 4th 5th	Come learn how to play the ukulele! It is such a fun instrument and perfect for everyone. You do not need any experience to start playing. Students will learn how to hold the ukulele, how to tune the ukulele, basic chords and fingerings, strumming patterns, rhythm and tempo, basic music reading, and basic music theory. Show up and be ready to have fun plucking and strumming away!
Yearbook w/ Mrs. Siu	12	none	5th	In this enrichment, we will be working together to create AAK's 2019-2020 yearbook! We will be using the photos taken throughout the year, doing interviews, and coming up with some fun pages to create a memorable keepsake for all of AAK!
