March 19, 2020

Dear AAK families-

We are writing to follow-up on our notification sent on March 17 regarding a potential COVID-19 exposure at our school. We have been in contact with the Larimer County Health Department and we have been advised that the recommended 14 day monitoring period from the last day of exposure is now over. During their investigation, the health department did not deem any AAK students or community members as high-risk for exposure. **If your child has not shown any symptoms, you do not need to be concerned about the exposure.** If you or your child have developed symptoms, the guidance is to self-isolate until you have been symptom free without the use of fever-suppressing medication for three days.

You can stay up to date with COVID-19 developments by visiting the following websites:

- [Larimer County Department of Health & Environment](#)
- [Colorado Department of Public Health and Environment](#)
- [Center for Diseases Control and Prevention](#)

The Larimer County Health Department has set-up an information center for questions about COVID-19 for Larimer County residents. Below are the best ways to reach them:

- **Call the Joint Information Center: 970-498-5500**
 - *Open Monday-Friday, 9:00am - 4:30pm*
- **Text with questions: 970-999-1770**
 - *They will do their best to respond within 4 hours during the day*

Thank you,

Academy of Arts & Knowledge
