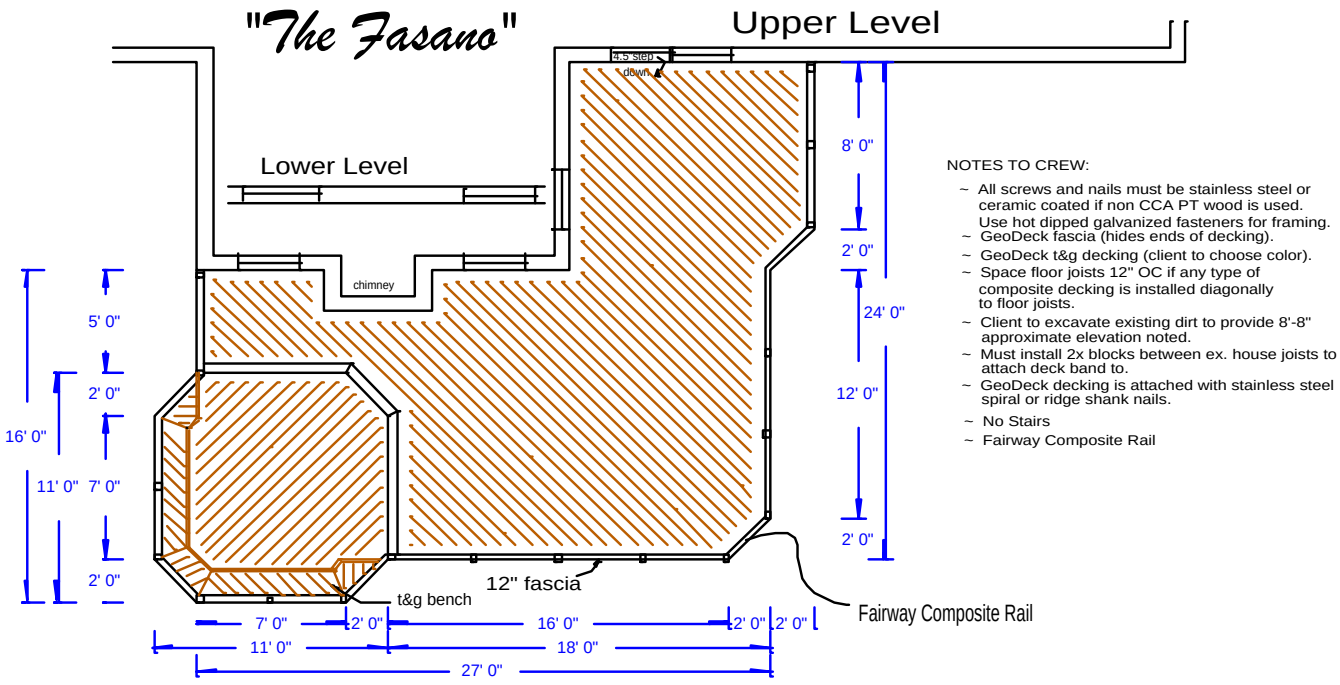
The next few photos are of Jim and Julie Fasano's deck. Their address is 3636 Carolina Ct., Fredericksburg, VA 22408. Home phone is 540 710-0208. They have been kind enough to become references for us. Feel free to stop by and take a look. Just be sure to call first.



Typical Section of Standard Fairway Composite Railing with GeoDeck Decking

Fairway Composite Railing is made to appear like painted wood.

12” GeoDeck mahogany fascia

We wrapped the 6x6s and built collars and bases. Client painted them.

The Fasanos painted the beams white. If you do this, be sure to use

… a product specifically designed to cover pressure treated wood. We recommend **Sikkens**. Call 800 833-7288. Ask for Phil Tatler and tell him Mike French said to call him.

Honestly, the best part of this deck is that the Fasanos will never have to spend hour after hour pressure washing, sanding, stripping, sealing, staining or painting their deck. They can simply enjoy their GeoDeck and Fairway deck… and be the envy of the neighborhood.
