

## **Vaxxe Interactive Acquires Mindlin Consulting**

Knoxville, TN May 20, 2019 -- Vaxxe Interactive Corporation has announced the acquisition of Mindlin Consulting Group. The acquisition of this company expands Vaxxe Interactive's proven core platform of Fourth Shift ERP services. Mindlin Consulting Group has been a trusted leader in the Fourth Shift community for nearly 2 decades. Mindlin has pioneered several innovations in data collection and workflow optimization from start-ups to Fortune 500 companies. Mindlin Consulting Group will begin operating under the Vaxxe Interactive brand.

Vaxxe Interactive specializes in modern software solutions such as Enterprise Resource Planning (ERP), custom business applications, and mobile products and services in a wide variety of industries. Their integrated applications and support framework provide clients comprehensive solutions to business challenges through vertical integration; i.e. the effective use of existing software platforms and new product implementations to deliver operational excellence.

Mindlin Consulting has expertise in manufacturing across many industries. Mindlin also established strengths in Fourth Shift consulting. "This ties directly into our vision of providing the latest innovations in workflow automation while preparing our customers with legacy systems for the future" stated Mike Goodwin President/CEO Vaxxe Interactive. "We are excited to demonstrate our commitment to the Fourth Shift community and this dedication is observed in each and every engagement"

“Vaxxe Interactive acquiring Mindlin Consulting will not only provide significant leverage in the ERP space but will also provide a more refined focus on driving new innovations in process automation tools. This will take our capabilities to the next level,” said Mindlin Consulting CEO Dan Mindlin. “We [Vaxxe and Mindlin] have worked in a strategic partner capacity for several years, our clients have enjoyed the strength of the two firms working in concert to deliver optimal results”

### **About Mindlin Consulting**

Mindlin Consulting is a group of skilled IT specialists, software developers, and project managers with a common goal of delivering ROI by bridging the gap between people and processes. Core competencies are process improvements, workflow integration, and business intelligence. Mindlin’s goal is to extend the life of legacy systems and custom applications. We know that helping our clients find and implement the best fit allows us to be the company of choice for their next business challenge.

### **About Vaxxe Interactive**

Vaxxe Interactive was established with the objective of building stronger businesses in three areas of practice: Enterprise Resource Planning (ERP), leading-edge application development, and software products. The company employs architectural and engineering experts to design or redesign IT solutions to simplify business operations. Vaxxe helps clients accomplish their business objectives through a total solution approach; offering a full range of business automation services including effective infrastructure, business resiliency, and strong business partner relationships. Expert consultants with years of professional experience offer consultancy, management, and support services. We employ state-of-the-art technology to design timely, efficient, and cost effective-solutions for our clients. VI allows businesses to compete efficiently and to execute innovative ideas affordably.
