Undeniable flexibility.

Passionate client focused.

Profound knowledge.

We're the missing piece you've been searching for, here's why...

Consulting. Software. Expertise. All in one place.

Don't go it alone. Whether you are just starting your organization's plan or have a comprehensive enterprise resilience plan in place, we can help you manage, anaylze and implement an optimal business continuity, Federal COOP, resilience and disaster recovery management program. We provide a one-stop shop of consulting services that encompass government, healthcare, manufacturing, academia, financial, eCommerce and so much more. Our software solution, Sustainble Planner® allows you to take control of the reigns and drive success. It's flexibility is unmatched and you don't pay for "customization."

We help minimize the stress of continuity planning and tailor it to your specific needs.

Virtual Corporation uniquely leverages its expertise in continuity consulting to ensure that the results of every project are sustainable, well documented and effective. Our philosophy is to deliver knowledge transfer to our clients. We begin every engagement planning for passing the continuity baton. Our consultants are experts across multiple business sectors and have over 50 plus years of combined experience. We make YOUR approach, OUR approach by getting in the trenches with you to learn the about your organizational needs and expecations.

As enterprise consultant leaders, our service offerings include but aren't limited too:

Business impact analysis	Continuity program design
Site vulnerability assessments	Program implementation
Crisis management	BCMM assessments and training
Incident command exercises and drills	Continuity exercise facilitation
