Why are nutraMetrix Isotonix® supplements better than standard supplements?

Isotonix formulas are more effective than standard supplement formulas because they offer the best way to get the maximum delivery of vitamins and minerals into the bloodstream. Isotonix formulas are also the fastest and most effective way to receive vitamins, minerals and nutrients. The stomach has very little work to do because the pH and tonicity are carefully designed to allow the stomach to quickly release all the nutrients into the small intestine. In doing so, little nutritive value is lost.
