- Helps maintain normal blood sugar levels
- Helps maintain normal insulin activity
- Helps maintain normal cholesterol levels
- Supports cardiovascular health

What Makes TLS® Trim Tea Unique?

nutraMetrix TLS® Trim Tea is a gluten-free, thermogenic slimming tea formulated to promote a multi-functional method to weight loss. Containing WellTrim® iG (*Irvingia Gabonensis/African Mango*) and black tea extract, Trim Tea uses a three-pronged approach to tackle weight management, targeting: satiety, appetite control and metabolic balance. While there are other weight management competitors on the market that use WellTrim® iG, most of them do not offer a product in the form of a tea. †

WellTrim® iG is a patented, clinically tested seed extract for weight loss and metabolic wellness. WellTrim® iG helps support weight loss by moderating glycerol-3-phosphate dehydrogenase enzyme activity to reduce the amount of ingested starches that are converted to triglycerides and stored as fat. It has also shown in research studies to promote feelings of fullness. Alongside WellTrim® iG, black tea extract enhances TLS® Trim Tea, as it contains antioxidants that have been shown to provide cardiovascular health support. †

Most slimming teas on the market today are sold as 14-day supplies and require two daily servings – one cup in the morning and another in the evening. nutraMetrix TLS® Trim Tea is a powerful formula that only recommends a single daily serving. Additionally, slimming teas often induce a laxative effect, which is a quick fix rather than a sustainable solution for long-term weight management. nutraMetrix TLS® Trim Tea is specifically designed to promote effective weight management. †

Additional benefits of nutraMetrix TLS Trim Tea:

- ✓ **Gluten Free** – the finished product contains no detectable gluten
- ✓ **No Detectable GMOs** – the finished product contains no detectable genetically modified organism
- ✓ **Vegetarian** – nutraMetrix TLS Trim Tea is a vegetarian product
