

## PRIMARY BENEFITS OF NUTRAMETRIX ISOTONIX RESVERATROL:

- Maintains cell health
- Promotes normal cell cycle activity
- Promotes apoptosis (programmed cell death) in unhealthy cells
- Promotes normal activity of the SIRT-1 gene (involved in calorie restriction, fat mobilization, mitochondrial function)
- Promotes cardiovascular health (promotes normal platelet activity, helps maintain normal vasorelaxation, provides antioxidant protection of LDL particles).
- Superior antioxidant and high ORAC value

### What makes nutraMetrix Isotonix Resveratrol Unique?

Poor cellular and cardiovascular health is becoming a worldwide epidemic. An unhealthy diet of processed, high-calorie, high-fat foods, pollution, smoking and sedentary lifestyles all contribute to poor cell and heart health. Scientist revealed The French Paradox which states that even though the French drink, smoke and eat high-fat foods they have some of the lowest incidences of poor cardiovascular and cellular health. Scientists attribute this to of the large amounts of red wine that the French consume, or more importantly, an extract found in red wine, resveratrol. Resveratrol is an ingredient with incredible clinical research revealing its supports cardiovascular and normal cell health. Because wine is so highly processed, the actual amount of resveratrol is quite low. One would have to drink at least three bottles of red wine a day to experience the effects of resveratrol extract. Additionally, the content of resveratrol in red wine is inconsistent and varies by type of wine, region and processing techniques. Resveratrol extract or more specifically, Resveravine®, which is a more concentrated form of resveratrol, ensures that the body reaps all of the benefits of resveratrol, without the ill effects from three bottles of wine. †

### Will I get drunk from taking nutraMetrix Resveratrol?

No. nutraMetrix Isotonix Resveratrol does not contain alcohol.

### Additional Benefits of nutraMetrix Isotonix Resveratrol:

- ✓ **Gluten-Free** - The finished product contains no detectable gluten
- ✓ **No Detectable GMO** - the finished product contains no detectable genetically modified organisms
- ✓ **Vegetarian** - nutraMetrix Isotonix Resveratrol is a vegetarian product
- ✓ **Isotonic** - Drinkable Supplements easy-to-swallow supplements in liquid form are immediately available to the body for absorption.
