

PRIMARY BENEFITS OF NUTRAMETRIX TLS THERMOCHROME WITH ADVANTRA Z:

- Increases energy
- Helps to alleviate occasional fatigue
- Promotes thermogenesis and lipolysis
- Promotes weight loss
- May suppress appetite
- Helps maintain normal blood sugar levels
- Contains key ingredients that support normal metabolic functions

What Makes nutraMetrix TLS® Thermochrome Unique?

nutraMetrix TLS Thermochrome is a unique proprietary formulation that combines the proven sciences of lipolysis and thermogenics to support increased energy levels and weight loss. nutraMetrix TLS Thermochrome uses only the highest quality ingredients, including Green Tea Extract, Guarana Seed, Chromium and Advantra Z. Advantra Z is made from the extract of citrus fruit and the only patented thermogenic ingredient for weight loss and peak physical performance on the market today.

With nutraMetrix TLS Thermochrome’s unique thermogenic blend, it can help the body burn through fat and maintain healthy blood sugar levels. Thermogenesis is the production of body heat generated from the burning of consumed and stored fat and supports healthy brown fat or brown adipose tissue. Brown fat produces heat by burning a high number of calories and increases energy levels. nutraMetrix TLS Thermochrome may also help suppress appetite and stave off cravings. Often, calorie restriction often triggers the metabolism to slow down and reserve as many calories as possible, but with nutraMetrix TLS Thermochrome’s effective blend, the body is able to increase the burning of body fat for fuel and reduce appetite.

How do I optimize my weight loss while using nutraMetrix TLS® Thermochrome™?

nutraMetrix TLS Thermochrome is an energy enhancer and appetite suppressant designed to help give you the boost you need to start a new workout routine and step up your level of physical activity. nutraMetrix TLS Thermochrome is most effective when paired with a regular fitness routine.

Additional benefits of nutraMetrix TLS Thermochrome:

- ✓ **Gluten Free** – the finished product contains no detectable gluten
- ✓ **Vegetarian** – nutraMetrix TLS Thermochrome is a vegetarian product
