

5 GALLON BUCKET ADJUSTABLE LID PRESS

The 5 Gallon Bucket Adjustable Lid Press from Xpect Solutions has been designed to replace the brutally hard process of manually hammering on lids at a reduced cost of the automatic system, but not a reduced quality.

The 5 Gallon Bucket Adjustable Lid Press will generate up to 2400 lbs of vertical force when pressing the lid onto the bucket and will accommodate from 1 to 6 gallon buckets.

Ergonomic dual safety palm buttons trigger the bucket closure cycle.

Please contact Xpect Solutions to discuss your application.
